## Confirm delivery

---

A confirmation of delivery must be done as soon as possible after the delivery of your goods, or after your service has been performed. A confirmation of delivery must also be done if your order has been partially delivered or executed.

Confirmation can be done in two ways, either through the tab "All requisitions", select "Deliveries and orders" or through the invoice details.

## Waiting for order confirmation

---

If an order has the status Pending order confirmation, a "Manual order response" must first be done before the order can be confirmed.

This order is waiting on Merck Life Science to respond with an order response. If you have already received the delivery create a manual order response with the button to open up to confirm delivery.

Manual order response

Click on the "Manual order response" button. The status of the order is changed to Not acknowledged and a confirmation can now be created.

## Confirm delivery through All requisitions

Click on "All requisitions " and then "Deliveries and orders".

Then a list of unreceived orders will be shown. Click on the order you wish to confirm delivery.

If it's an order with goods, enter the received quantity. The system always suggests that all items have been delivered. In case you did not receive the entire order, fill in a zero on the items you did not receive. If you have received parts of the order, fill in the quantities you did receive.

Your delivery is now complete. If the invoice deviates from the quantity or amount, the invoice will not match the order and the status on the invoice will be Review not performed (order match).

The invoice must now be reviewed by the person who made the order and, in some cases, also approved if the mismatch is due to a price deviation. When the invoice has been reviewed it will be given the status Ready.

## Delivery when you have received an invoice

If you have received an invoice for your order in your inbox and have not confirmed your delivery, you can use the invoice to access the delivery view. Click on the text "Confirm delivery" to get to the view for confirming your items.
